[‡] This percentage is based on fewer than 20 respondents (Unweighted N<20) and should be interpreted with caution.

¹ Excludes Area 2 (Elkhart, Kosciusko, LaPorte, Marshall & St. Joseph Counties) which was surveyed in 2006.

² Includes Jasper, Lake, Newton, Porter, Pulaski, and Starke Counties.

³ Includes Adams, Allen, De Kalb, Huntington, Lagrange, Noble, Steuben, Wells, and Whitley Counties.

⁴ Includes Benton, Carroll, Clinton, Fountain, Montgomery, Tippecanoe, Warren, and White Counties.

⁵ Includes Cass, Fulton, Howard, Miami, Tipton, and Wabash Counties.

⁶ Includes Blackford, Delaware, Grant, Henry, Jay, Madison, and Randolph Counties.

⁷ Includes Clay, Parke, Putnam, Sullivan, Vermillion, and Vigo Counties.

⁸ Includes Boone, Hamilton, Hancock, Hendricks, Johnson, Marion, Morgan, and Shelby Counties

⁹ Includes Fayette, Franklin, Rush, Union, and Wayne Counties.

¹⁰ Includes Monroe and Owen Counties.

¹¹ Includes Bartholomew, Brown, Decatur, Jackson, and Jennings Counties.

¹² Includes Dearborn, Jefferson, Ohio, Ripley, and Switzerland Counties.

¹³ Includes Daviess, Dubois, Greene, Knox, Martin, and Pike Counties.

¹⁴ Includes Clark, Floyd, Harrison, and Scott Counties.

¹⁵ Includes Crawford, Lawrence, Orange, and Washington Counties.

¹⁶ Includes Gibson, Perry, Posey, Spencer, Vanderburgh, and Warrick Counties.

¹⁷ The unweighted N represents the actual number of adults age 60 and older interviewed.

¹⁸ The weighted N represents the non-institutional population of adults aged 60 and older in Indiana, and is based on Claritas data. See the methodology for more information about how the weighted estimate was obtained.

¹⁹ We asked respondents whether they agree or disagree with the following statement: "What I'd really like to do is stay in my current residence for as long as possible." For people who answered "agree" we calculated the percentage of adults age 60+ who were very confident/not very confident that they will be able to afford to live in their current residence for as long as they would like.

²⁰ Agree includes those who said Strongly agree or Somewhat agree.

²¹ Not very confident includes those who said Somewhat confident, Not too confident, Not confident at all, Don't know, or Refused.

ADVANTAGE INITIATIVE SURVEY IN INDIANA, 2008

²² People were asked whether their current residence needs any significant repairs, modifications, or changes to improve their ability to live there over the next five years.

²³ People who said that their homes need modification were asked if they plan to make the change over the next five years.

²⁴ People were asked whether safety in their neighborhood is excellent, very good, good, fair, or poor.

²⁵ People were read a list of fourteen neighborhood problems and were asked to indicate whether each item posed a big problem, small problem, or no problem in their neighborhood.

²⁶ People were asked how satisfied they are with their neighborhood as a place to live.

²⁷ The category “Not very satisfied” includes those who said they were somewhat satisfied, somewhat dissatisfied, or very dissatisfied with their neighborhood.

²⁸ People were asked if in the past 12 months they or another adult in their household cut the size of or skipped meals because there wasn’t enough money for food.

²⁹ People were asked to indicate the best resource, such as a person or an organization, in their city, town, or county to get information on various services.

³⁰ Respondents were asked whether these 10 services are available in their area.

³¹ People were asked whether they need assistance with the following activities: ADLs – taking a bath or shower, dressing, eating, getting in/out of bed/chair, using/getting to a toilet, getting around inside the home and IADLs – going outside the home, doing light housework, preparing meals, driving a car/using public transportation, taking the right amount of prescribed medication, keeping track of money and bills.

³² People who answered “yes” were asked whether they get enough assistance with these activities. Unmet need was defined as not getting help or not getting enough help for one or more ADLs and/or IADLs for which assistance was needed.

¹⁷ The unweighted N represents the actual number of adults age 60 and older interviewed.

¹⁸ The weighted N represents the non-institutional population of adults aged 60 and older in Indiana, and is based on Claritas data. See the methodology for more information about how the weighted estimate was obtained.

¹⁹ People were asked whether they had any of the listed preventive measures or tests in the past 12 months.

²⁰ PSA (prostate cancer screening) test for men only.

²¹ Mammogram for women only.

²² People were asked whether in the past year, there was a time when they thought they needed the help of a health professional or a counselor because they felt depressed or anxious.

²³ The number of “unhealthy” days is based on a summary index from the following two questions: 1. “Now, thinking about your physical health, which includes physical illness and injury, for how many days during the past 30 days was your physical health not good?” and 2. “Now, thinking about your mental health, which includes stress, depression, and problems with emotions, for how many days during the past 30 days was your mental health not good?”

²⁴ People who had one or more “unhealthy days” were asked “During the past 30 days, for how many days did poor physical or mental health keep you from doing your usual activities, such as self-care, work, or recreation?”

²⁵ People were asked: “Would you say that, in general, your health is Excellent, Very good, Good, Fair, Poor, or Very poor?”

²⁶ Includes people who said their health was Fair, Poor, or Very poor.

²⁷ “Regular leisure time activity” is defined as 1) light or moderate activity that causes light sweating or a light to moderate increase in breathing or heart rate and occurs five or more times per week for at least 30 minutes each time, and/or 2) vigorous activity that causes heavy sweating or large increases in breathing or heart rate and occurs three or more times per week for at least 20 minutes each time. People who engage in other combinations of the two types of physical activities described above are included in the category “some activity.” Those who are unable to or do not engage or seldom engage in physical activity are included in the category “no activity.”

²⁸ People were asked whether there is a place that they usually go when they are sick or need advice about their health.

²⁹ People were asked what kind of place they go to most often – a clinic, doctor’s office, emergency room, or some other place.

³⁰ People were asked whether in the past year there was a time when they thought they needed medical care because they felt sick.

³¹ People who answered “yes” were asked whether they saw a medical professional when they felt sick.

³² People were asked whether there was a time in the past 12 months when they did not have enough money to follow up on tests or treatment recommended by a doctor.

³³ People were asked whether there was a time in the past 12 months when they did not have enough money to fill a prescription for medicine.

³⁴ People were asked whether there was a time in the past 12 months when they did not have enough money to obtain dental care (including checkups) and whether there was a time in the past 12 months when they did not have enough money to obtain eyeglasses.

³⁵ People were asked whether end of life or hospice care service is available in their area.

³⁶ People were asked whether they had used end of life or hospice care in the last 12 months.

ADVANTAGE INITIATIVE SURVEY IN INDIANA, 2008

¹⁷ The unweighted N represents the actual number of adults age 60 and older interviewed.

¹⁸ The weighted N represents the non-institutional population of adults aged 60 and older in Indiana, and is based on Claritas data. See the methodology for more information about how the weighted estimate was obtained.

¹⁹ People were asked whether public transportation is available in their community.

²⁰ People were asked which means of transportation they use most frequently.

²¹ Includes taxi, walk, special transportation, and other.

²² People were asked whether they need assistance with the following activities (ADLs): taking a bath or a shower, dressing, eating, getting in/out of bed/chair, using/getting to a toilet, getting around inside the home. Those who answered “yes” were asked whether they get enough assistance with these activities.

²³ People were asked whether they need assistance with the following activities (IADLs): going outside the home, doing light housework, preparing meals, driving a car/using public transportation, taking the right amount of prescribed medication, keeping track of money and bills. Those who answered “yes” were asked whether they get enough assistance with these activities.

²⁴ People were asked whether they provide help or care, or arrange for help or care, for a relative or friend who is unable to do some things for him/herself due to illness or disability.

²⁵ People who said they provide care were asked “What is this person’s relationship to you?”

²⁶ People who said they provide care were asked “In total, how long have you been caring for ...”

²⁷ People who said they provide care were asked “On average how many hours per week are you caring for ...”

²⁸ People were asked whether they get relief from their caregiving responsibilities.
